PERSONAL PROJECT

Software Alliance Official website

(MERN, Bootstrap5 & Material UI)

Software Alliance

Built a dynamic fully responsive Software Alliance official website showcasing modern web app development expertise.

Portfolio

(React.js & Material UI)

University of Okara

A responsive real estate website with ReactJS, Bootstrap, and Material UI, focusing on user experience and mobile compatibility, resulting in an aesthetically pleasing and highly functional interface.

SKILLS

HTML

CSS

Bootstrap

JavaScript

MongoDB

SQL

Node.js

React.js

Express.js

MERN Stack

FINAL YEAR PROJECTS

Parking Management System using PHP, JavaScript and MySQL

The Parking Management System optimizes facility operations with reservation features, enhanced security through vehicle monitoring, and streamlined processing. It offers administrators valuable insights via robust reporting tools for efficient resource management.

REFERENCE

Reference will be furnished on demand

Experience

Software Alliance

Full Stack MERN Internship (1st Jan to 29 Feb 2024)

During my internship, I had the valuable opportunity to immerse myself in the MERN stack (MongoDB, Express.js, React.js, Node.js) under the guidance of a seasoned team within the industry. Engaging in real-world projects, I gained practical experience in collaborating effectively within a team environment.
