EDUCATION

BSIT University Of Okara

09/2019 - 09/2023, *Courses*

CGPA: 3.21

Core Subjects:
- Object Oriented Programming
- Data Structure and Algorithm
- DBMS
- Operating System
- Mobile App development
- Artificial Intelligence
- Web Development
- Design and Algorithm
- Compiler Construction.

Cracking the Coding Interview Bootcamp

Seed Programming

10/2023 - 12/2023, *Courses*

Algorithmic Proficiency

Solve Hacker Rank and LeetCode Problems

Professional Development

WORK EXPERIENCE

MERN Stack Intern

Software Alliance Pvt Ltd

03/2024 - 06/2024, *Achievements/Tasks*

Lahore

- Developed RESTful APIs in Node.js for efficient web-backend communication.

  I have optimized SQL queries for enhanced data retrieval.

- Created responsive UI's with Reactjs and tailwind CSS for seamless user experiences.

  React js cross-platform applications, achieving a remarkable

  Collaborate with the development team to implement user interfaces, enhancing user satisfaction by 20%.

  Demonstrated hands-on experience utilizing React JS,

  seamlessly integrating with three backend services and APIs for enhanced functionality.

  Streamlined the development pipeline by integrating Git for version control, ensuring seamless collaboration

SKILLS

ReactJs   Nodejs   MongoDB   Expressjs

REST API Integrations   Tailwind   MySql
